In the Matter of Rates for Intrastate Inmate Calling Services

WC Docket 12-375

Dear Commissioners:

I write to comment on several subjects on which you requested comment in your Report and Further Notice of Proposed Rulemaking released on September 26, 2013. I request that you conclude that site commissions are an impermissible addition to prison telephone rates; that you will require a per minute rather than a per call rate; that you prohibit fees for ancillary charges; that you require telephone companies that engage in billing related call blocking to offer prepaid collect calling; and that you forbid exclusive contracts for prisoner telephone calling.

I. My Background

I have been in prison in Michigan since 1982. The telephone is an indispensable means of maintaining family contact, and it is essential for access to courts and counsel. Over the past thirty-one years I have relied on the telephone to contact the lawyers, private investigators, and others helping me with challenges to my criminal convictions and cases involving conditions of confinement. Few lawyers who represent the imprisoned have the time or resources for many visits, and a telephone call can quickly clear up questions that might otherwise involve several letters.

I worked as a staff paralegal for Prison Legal Services of Michigan, Inc. (PLSM), a private non-profit corporation, from October 1987 until it closed in November 2008. From 1975 until April 2003, PLSM had offices inside the walls of the State Prison of Southern Michigan in Jackson, and at various times during those years it had offices inside other Michigan prisons. Prisoner access to reasonably priced telephone calls was vital to our work. The average reading level in Michigan prisons is below eighth grade and in many cases it was easier communicate by telephone than by mail.

I was a named plaintiff in Cain et al v Michigan Department of Corrections, Ingham County Circuit Court Case No. 88-61119-AZ, a state-wide prisoner class action case in which one of the issues was prisoner telephones. The court appointed me to represent the plaintiff class from 1988 through 1996, when the court appointed PLSM as counsel. I remained active in the case as a class representative until settlement and monitoring were complete in November 2005. I am still in prison and I use the telephone almost daily, but not as much as I would if the rates were lower.

II. Telephones in Michigan Prisons

Michigan prisons have had telephones for prisoners since 1972. From then until 1991, what ever telephone company served a community also provided operator assisted collect call only services to the prison there. The charges were reasonable - the same as those charged for collect calls in the community.

III. Site Commissions

In 1991, Michigan began charging the telephone companies "premises fees" which it interchangeably called "commissions." It contracted with four telephone companies: Sprint, AT&T, Ameritech, and GTE-North. Each provided service in a different geographic area of the state and each paid a different percentage of billings in commissions. The commissions ranged from 15% to 45% of the telephone company's billings, depending on the contract with that particular telephone company. The commissions Michigan received grew from \$3 million in FY-1991 to more than \$10.4 million by FY-1996. The Corrections Appropriations bills for those years show that the commissions were used to fund the "county jail program." Under this program Michigan reimbursed counties for the cost of care for criminal defendants who could have been sentenced to prison but were sentenced to jail instead. Enclosure 1 is a spreadsheet that shows the commissions Michigan received from the telephone companies from FY-1993 through FY-1996. It was provided by the Michigan Department of Corrections and was part of Plaintiff's Exhibit 342 in Cain v MDOC.

In response to one of our written interrogatories in Cain, the MDOC said, "The [telephone] vendors are charged premise fees due to the fact that their equipment is installed on State of Michigan property." (Response to February 1997 Interrogatory No. 123.) To compare prisoner telephone rates with those charged to civilians calling our office from a pay telephone on State property in the lobby of the prison, our office manager went to the lobby and made a collect call to the office that cost half the price of a collect call to the office from the telephone on the prison yard in the same prison. The lobby telephones were not restricted on a single telephone company; the caller

could select which telephone company she would use. If there was a commission paid on calls from the lobby telephones, it would seem to have been much lower than that charged on prisoner calls.

In 1993 Michigan's legislature enacted MCL 791.270, which allowed prison officials to monitor and record prisoner's telephone calls. The following year the MDOC adopted administrative rule R791.6638 which set forth procedures for monitoring and recording the calls, and it contracted with the telephone companies to monitor and record prisoners' calls. Prisoners were allowed to call only numbers on a pre-approved list and calls were limited to fifteen minutes per call, after which telephone company equipment disconnected each call.

In 2001, Michigan contracted with Sprint as the sole provider of prisoner telephone services. The system allowed collect, prepaid collect, and debit calls. The contract guaranteed Michigan a minimum of \$13.5 million in commissions or 50.99% of the gross revenue generated from prisoner telephone calls, which ever was greater. The price of a telephone call from prison went through the roof.

Local calls were billed at a flat rate of \$2.00 per fifteen minute call. A fifteen minute Intra-LATA call cost \$4.10 in the daytime and \$3.26 evenings, nights, and weekends. A fifteen minute Inter-LATA (Intra-State) call cost \$7.85 any time of day, and a fifteen minute Inter-State call cost \$17.34. The prices for Intra-LATA calls included a \$2.00 surcharge assessed at the point the called party took the call. The surcharges on Intra-State and Inter-State calls were \$2.95 and \$3.99, respectively. If a call was dropped after ten seconds, the bill was the surcharge plus the first minute. Refunds were possible, but involved such a run-around from the telephone company that few people pursued them. Enclosure 2 is page 156 of Contract No. 071B1001568 between the State of Michigan and Sprint. This five year contract took effect in 2001 and in 2006 it was extended until 2011.

III. Elimination of Site Commissions

In 2007 a years-long lobbying effort by MI-CURE, American Friends Service Committee, and Citizens' Alliance on Prisons & Public Spending (CAPPS) paid off and Michigan's legislature incorporated into the FY 2007-2008 Corrections Appropriations bill language proposed by the State Bar of Michigan's Prisons & Corrections Section: "Any contract for prisoner telephone services entered into after the effective date of this act shall include a condition that the fee schedules for prisoner telephone calls, including rates and any surcharges other than those necessary to meet special equipment costs, be the same as fee schedules for calls placed from outside of correctional facilities." The same language was carried forward into the Corrections

Appropriations bills through FY 2011-2012.

The Bar's position paper explained that by "special equipment costs" it meant the costs of equipment needed for monitoring and recording of prisoner telephone calls under MCL 791.270. Because under the contract the telephone company rather than the state had to assume that cost, there was no longer any acceptable rationale for the high commissions to the MDOC.

From August 1, 2008 until mid-June of 2011, the rates for prisoners' calls were as follows: collect and prepaid collect calls \$0.12 per minute intra-state and \$0.15 per minute inter-state; debit calls \$0.10 per minute intra-state and \$0.12 per minute inter-state. International debit calls were \$0.50 per minute. All taxes were included in these prices and nothing was kicked back to the State. Enclosure 3 is the August 1, 2008 rate schedule that was posted in the prisons.

IV. Site Commissions Return Under A New Name

In 2010 Michigan solicited bids for a new telephone contract. Paraphrasing the language in Section 219 of the Corrections Appropriations bill, the Request for Proposal asked bidders to include information on setting up a "special equipment fund."

In February 2011, Michigan awarded the contract to Public Communications Services, Inc. (PCS), of Los Angeles, CA. Under the contract, PCS provides all hardware and software for calling, monitoring, and recording prisoners' telephone calls. The "base rate" for these services is \$0.0393 per minute for collect and prepaid collect calls (local, intra-state, and inter-state), and \$0.0343 for debit calls (local, intra-state and inter-state). The base rate for debit only international calls was \$0.4995 per minute. Enclosure 4 is excerpts from the Contract between the State of Michigan and Public Communications Services, Contract No. 071B1300208 (3/18/11) and Change Notice No. 1 (4/23/11). However, the contract does not expressly contain any reference to the Corrections Appropriations bill that bars "any surcharges other than those necessary to meet special equipment costs."

Change Notice No. 1 summarizes the per minutes rates charged on prisoner telephone calls. The calls on which the base rate is under \$0.04 per minute are billed at between \$0.18 and \$0.23 per minute, not including taxes. Change Notice No. 1 imposes two surcharges on all prisoner telephone calls. The first is flat rate \$0.0075 per minute on all calls to pay for a "key Word Search Addition" to the monitoring and recording software for the prisoner telephones.

The second is a surcharge that varies from \$0.1382 per minute to \$0.2430 per minute depending on the type of call, to pay for the "Special Equipment Fund Addition."

Buried on page 87 of the contract, "Exhibit 4 - Optional Services," defines "Special Equipment Fund" as "Funds provided each year to support the State's Special Equipment Fund. This could be used to procure cell phone detection technology, or other further technology initiatives within the MDOC."

Page 92 of the contract explains that the Special Equipment Fund can be used for anything the MDOC wants it to be used for. It looks a lot like a means of raising revenue for things other than the prisoner telephone system. A copy is included in Enclosure 4.

The proceeds of the Special Equipment Fund are divided between the State and the telephone company in a ratio that depends upon the number of minutes billed annually and monthly. According to an attachment to Change Notice No. 1 entitled "Special Equipment Fund (per month) Revised V2," the State receives seventy percent of the surcharge for fewer minutes, and up to eighty percent of the surcharge at the high end. The other twenty to thirty percent of the surcharge is the telephone company's share for managing this fund. At the seventy-thirty split on a debit call with a Special Equipment Fund surcharge of \$0.1382, the telephone company is compensated at a rate higher than it charges for the actual telephone call: \$0.0343 for the call and \$0.04146 from the Special Equipment Fund! Both the cover sheet of the Contract and the cover sheet of Change Notice No. 1 state that the value to the State of the Contract is \$5.00.

On June 19, 2011, mlive.com reported that MDOC spokesman John Cordell said there is no profit for the MDOC in the Special Equipment Fund and that the money from the Special Equipment Fund will be used for equipment "to detect and jam cell phones within [prison] facilities." Hopefully Mr. Cordell was unaware that cell phone jammers are not sold in the United States and importing them is a violation of federal law. United States v. Murphy, 518 Fed. App'x. 396, 398 (6th Cir. 2013). Enclosure 5 is a copy of the mlive.com report.

Mr. Cordell told mlive.com that the MDOC confiscates "eight to ten" cell phones annually. He did not say whether they are confiscated from prisoners or staff. He said prisoners using smuggled cell phones "has not gotten out of hand in Michigan."

Michigan's legislature tried to block the Special Equipment Fund in Section 272 of 2011 Senate Bill 138, a supplemental appropriation bill that eliminated it and required that rates for prisoner telephone calls be no greater than rates for residential users in the area surrounding the prison. The governor signed the bill and told the MDOC to ignore Section 272 because in his opinion it was unenforceable. Enclosure 6 is copies of Section 272 of the bill and a 7/14/11 Gongwer's News Service article from the CAPPS website about the governor's

action.

All along it has been unclear to me why the MDOC would have to buy and learn how to use cell phone detection equipment, when the telephone company offers that service as part of the contract that the MDOC chose not to use. See pages 87 and 96 of the contract, included in Enclosure 4.

In 2012 the MDOC abandoned the pretense of cell phone detection. It requested that the Legislature approve use of the Special Equipment Fund to buy TASERS and "Personal Protection Devices" for the prison staff. The Corrections Appropriations bill for FY 2012-2013 approved this use of the money.

Even these limits have been lifted from the Corrections Appropriations bill for the current fiscal year. It uses \$6 million of the Special Equipment Fund for unspecified "capital outlay," \$5.8 million for unspecified "operations support," and \$2 million for counseling programs such as the "Violence Prevention Program," "Thinking For Change," and sex offender treatment.

V. Comments on Specific Paragraphs

133. I hope that you will conclude that site commissions are impermissible addition to telephone rates. Our experience in Michigan typifies the "wild west attitude" referred to in footnote 212 on page 31 of the Commission's Report and Order.

I pay the telephone company \$0.04146 per minute in a surcharge on call for which the base rate is \$0.0343. It seems anomalous that a telephone company makes more money from its financial machinations than it does from its telephone business. That sounds more like a banker. Perhaps banking regulators should look into this.

The State, on the other hand, received a windfall of more than \$13 million this year. That is unfair, unreasonable, and unjust. Even if the money added to the price of legitimate prisoner calls were used to detect users of illegal cell phones, that would be grossly unfair. I compare it to taxing legitimate buyers of over the counter medications to pay for the costs of enforcing laws against illegal drug use. The only reason the situation is tolerated in prison is because it mostly affects the poor and disenfranchised and we lack the voice of the prison lobby.

160 to 162. The problem with a per call rate is to get reimbursement for dropped calls that are the fault of the prison telephone company. When Michigan had the Sprint surcharge assessed per call, a ten second dropped call would cost over \$3 and each time I had to write letters and complaints for six months or more to get my money back.

- 167. Michigan prisoners pay no fee for putting money in the debit calling, but our families and others pay a \$3.95 credit card fee each time they add money for prepaid collect. Enclosure 4, page 94.
- 173. Billing related call blocking. Telephone companies must offer prepaid collect calling if they engage in billing related call blocking. In Michigan, prisoners are assessed court costs and restitution payments, which are deducted from their prison accounts at the rate of 50% of all deposits over \$50 each month. Thus if someone sends a prisoner who owes costs or restitution money for debit calling, it is subject to seizure. If the prisoner has earned or received \$50 for that month, the sender will have to send twice as much as needed for calling because the State will take half.

176. Michigan's experience with multiple contracts through the 1990s shows that exclusive contracts are only necessary when the State is trying to wring higher fees from the telephone companies. Modern technology is such that any telephone company can handle the monitoring and recording.

Please let me know if you have any questions or need more information. Thank you for considering my comments.

Very truly yours,

Maymond (Waleng)
Raymond C. Walen, Jr.

Encls.

ATTACHMENT B: Pricing

State of Michigan DOC Accepted Pricing for Sprint Inmate Telephone Services

Option A

Option A offered by Sprint allows the State to maintain the revenue stream of \$13.5M in commission dollars while maintaining low fixed rates that are below current tariffed rates for Ameritech GTE, and AT&T. If the State chooses to proceed with this option, a premise fee of 50.99% (fifty point ninety-nine percent) will be paid on the gross revenue generated. Sprint has based the fixed rates to generate a premise fee of \$13.5M annually to the State. The rates in Option A are approximately 38.6% below tariff and are displayed below.

Special Equipment Fund (per Month) Revised V2

If the base per minute rates are increased by the totals provided in the Special Equipment Fund (SEF) table, the Contractor will deposit the associated percentage of the Special Equipment Fund (SEF) rate increase as identified below:

For Example: From 6,250,000 to 8,333,333 minutes per month, PCS will deposit 70% of the Special Equipment Fund (SEF) rate increase into the SEF. From 8,333,334 minutes per month to 8,541,667 minutes per month, PCS will deposit 70.25% of the SEF rate into the SEF Fund. For each additional increment of 208,333 minutes per month, PCS will add an additional 0.25% to the SEF deposit percent as outlined.

If the State increases the blended rate for the SEF by more than \$0.18 or if volume drops below 6,250,000 minutes/month, the State and Contractor will mutually agree on any modifications to this table. The following example demonstrates how the blended rate will be calculated:

4		EXAMPLE (Blended Rate Calculation)							
		Local, IntraLATA, InterLATA/Intrastate	Interstate	Int'l					
	% by Band	90% - Collect/Prepaid 90% - Debit	10% - Collect/Prepaid 9% - Debit	0% - Collect/Prepaid 1% - Debit					
Collect/Prepaid	47%	\$0.1532	\$0.1832	545 11					
Debit	53%	\$0.1382	\$0.1682	\$0.2430					
	Blended Rate	\$0.1487							

Prior to completion of the implementation (State acceptance at all MDOC facilities as identified in the agreed upon project schedule), if the monthly minutes do not reach 6,250,000 per month, PCS will still deposit 70% of the Special Equipment Fund (SEF) rate increase into the SEF.

Exhibit 4 - Optional Services

Exhibit 4 includes a description of the Optional Services available through this contract. Pricing for these Optional Services is included **Exhibit 6P**.

The Contractor will provide the following optional services, at the State of Michigan's discretion.

Feature	Description of Services and Benefits	Cost
InTime Labor Management	Improve your methods of maintaining staff scheduling Reduce overtime costs up to 25% Reduce staff time spent on daily scheduling The most user-friendly scheduling tool on the market	See Exhibit 6P
Information Data Sharing with Wayne County	Share information with Michigan's largest county to enhance investigations No need to set up inmate accounts for transfers from Wayne County Automatically transfer inmate data, such as PANs and call detail records Reduce administrative burden in booking all Wayne County transfers	No Additional Cost (included in Exhibit 5P)
Keyword search	Quickly scan thousands of recordings to locate key words Vastly reduce staff time spent listening to call recordings Search for sounds that make up words (phonetically)	See Exhibit 6P
Cell Phone Detection/ Control	Military-grade hardware that controls inmate access to cell phones "Detects" the presence of cell phones Provides investigative information on the cell phone and SIM card	See Exhibit 6P
Over-the-phone Debit time and	Inmates order commissary items using the inmate phones Orders processed through automated system prompts	No Additional Cost
commissary ordering*	Staff spend less time collecting and processing commissary forms *Available with the integration with TAPS.	(included in Exhibit 5P)
iPhones	Easy and secure website login on the state-of-the-art iPhone Convenient mobile access for administrative and investigative tools No special software or hardware required Investigators can work from their office, their home, or the road Touch the screen to access data, reports, recordings, etc.	See Exhibit 6P
Real-time Debit Transfer*	Debit funds are processed instantly Inmates can make calls as soon as they complete the transfer	No Additional Cost
	*Available with the integration with TAPS.	(included in Exhibit 5P)
Inmate tip/messaging	Inmates can record messages for facility staff Can be used to assist in PREA efforts	No Additional Cost
lines	Staff can solicit and track anonymous crime tips	(included in Exhibit 5P)
Quarterly Business Reviews	Meet face-to-face with your Account Manager on a regular basis Learn about new technology and system features Analyze your account's financial and technical performance Obtain additional training face-to-face or over-the-phone, as you prefer	No Additional Cost (included in Exhibit 5P)
Special Equipment Fund	Funds provided each year to support the State's Special Equipment Fund. This could be used to procure cell phone detection technology, or other further technology initiatives within the MDOC.	See Exhibit 6P
Inmate sick calls (medical	Inmates select medical appointment times over the phone Appointment selection processed through automated prompts	No Additional Cost
ordering) Reverse Lookup	Reduce staff time spent scheduling medical appointments Look up name and address for any dialed number Staff can look up an unlimited number of dialed numbers	(included in Exhibit 5P) No Additional Cost
-	Display results on a map or satellite image Use Reverse Lookup for calls in progress or completed calls	(included in Exhibit 5P)
Inmate information	Inmates can obtain recorded information over the phone Includes inmate appointments, court dates, and release dates	No Additional Cost
lines*	Reduce staff time spent responding to information requests *Available when ITS is integrated with the OMS	(included in Exhibit 5P)

Periodic Business Reviews

As part of the services the Contractor offers to our clients during every cutover and annually, semi-annually or quarterly, as the MDOC prefers, a member of our regional Client Services team will meet with all MDOC personnel who use or depend on Contractor services and software. During this Periodic Business Review clients will have an opportunity to receive ongoing training or training for their own recently hired personnel; and have an opportunity to hear about new product offerings or enhancements.

The MDOC will also have a chance to review and discuss whether the existing system is fully meeting the expectations defined during the original contracting and installation process and will be offered information based on a consultation with Contractor's in-house financial and technical experts about how modifications in the existing system might help better satisfy them.

This review process and expertise will be offered throughout the life of the contract and may significantly help maintain MDOC satisfaction with Contractor's offerings even as usage patterns and the MDOC's expectations for installed systems change over time.

Special Equipment Fund

If this option is selected, the Contractor would work with the State to setup a Special Equipment Fund for the purpose of purchasing special equipment on a discretionary basis throughout the life of the contract. The Contractor would deposit funds into the Special Equipment Fund to support the cost of MDOC special equipment purchases, either through this Contract or alternative procurement channels that, on an ongoing basis, MDOC determines that it requires. The Contactor would work with the State to select the deposit schedule, be it monthly, quarterly, or yearly, that best meets the State's needs.

Inmate Sick Calls: A Medical Ordering Solution

The Inmate "Sick Calls" feature offers an inmate the ability to schedule an appointment and receive confirmation over the phone from the Contractor's automated operator.

Reverse Lookup by BTN

The Contractor's Solution includes Reverse Lookup as a standard feature that can be utilized to check a called-to number while a call is in progress, for any frequently called number, or for numbers that have not yet been called before they are added to the inmate's personal number list (PAN). The Reverse Lookup feature is offered at no cost to the MDOC.

Access Reverse Lookup by BTN

The Reverse Lookup feature provides the billing name and address associated with a given telephone number and a map, and satellite photo if available. The user merely clicks on the called-to number to bring up the Reverse Lookup dialog box that shows the name and address of the called party.

Inmate Information Lines

The Contractor can configure internal lines, much like the inmate message lines, which inmates can call to check information. If the State's OMS vendor is amenable the Contractor can interface—which can be done simply and require no additional onsite hardware or administration—with the JMS to import data such as inmate medical, dental and barber appointments, court dates, release dates, bail amounts etc. and allow inmates to call an internal line to have this information read to them by the Automated Operator. They could also be allowed to request appointments on these in-house lines and learn whether their appointment was made and at what time when next they called the Inmate Information line.

Integration with JPay for Card Release Services

With JPay's cooperation, the Contractor has the ability to integrate with JPay's solution to allow inmates to receive debit account refunds through JPay's Release Debit Card service. When an inmate is released, The Contractor can transfer inmate phone account funds to the inmates' trust account. The funds can then be loaded onto a debit card from JPay that the inmate can use at any ATM or merchant. Alternately, the Contractor has a kiosk product line that also includes the integrated release debit card service.

Voice Verification/Biometrics

The Solution's Voice Verification feature can be employed in conjunction with the keyed-in PIN numbers. With this technology, inmates are required to speak their PIN as well as provide a keyed-in PIN number in order to make a telephone call. The inmate's voice is matched against the spoken PIN as recorded during account enrollment and also against the PIN number. The call will only go through if the voice and PIN match. This prevents inmates from making fraudulent calls using another inmate's PIN.

Other Services

The Contractor understands that the State is working with JPay to provide inmate voicemail, email and lobby kiosks. The Contractor has the capability to provide these services in the future, should the State so desire.

- Inmate Voicemail The Contractor's solution can provide inmate voicemail that is fully monitored and recorded.
- Inmate Email The Contractor has several solutions for providing inmate email. Emails can be printed and distributed to inmates, or inmates can access email through a designated kiosk.
- Lobby Kiosks The Contractor can provide an online centralized deposit solution that provides additional payment channels for funding inmate trust accounts that includes a kiosk release solution.
- Visitation Telephones The Contractor has the ability to provide the State with PIN-operated visitation phones that would allow visitation phone calls to be monitored and recorded, just as the inmate phones are monitored and recorded. The Contractor can provide Navitel (OTC-2120S Visitor Side; OTC-2110V Inmate Side) visitation phones.
 - With this solution, the inmate is required to enter his/her PIN on the inmate visitation phone keypad in order to connect to their visitor. This allows for the identification of the inmate through the ICM. Once the inmate is identified, the call can be recorded and monitored just like a standard inmate telephone call.
- <u>Disposable Hospital Phones</u> The Contractor has the ability to provide disposable hospital phones for inmates in the infirmary.

Exhibit 5P - Pricing

The Contractor will have full responsibility for project implementation. Items, which are not produced or provided directly, shall be marked as such. Prices shall be inclusive of any and all costs associated with full implementation, which may include but is not limited to applicable, such cost of manufacture, packing, handling loading/unloading, removal of debris, transportation, inside delivery, installation, training, maintenance, documentation, insurance, and any other item that could be interpreted as the overall cost to procurement.

The firm fixed price for performing services in accordance with the provisions and requirements stated in this Contract is provided below. This price is fixed/firm throughout the life of the contract.

Collect/Pre-paid Collect Calls:

Call Type	Per Call Surcharge (Firm Fixed Price)	Rate per minute (Firm fixed Price)	
Local	\$0	\$0.0393	
Intralata	\$0	\$0.0393	
Intrastate	\$0	\$0.0393	
Interstate	\$0	\$0.0393	

Debit/Debit Cards:

Call Type	Per Call Surcharge (Firm-Fixed Price)	(Firm fixed Price)	
Local	\$0	\$0.0343	
Intralata	\$0	\$0.0343	
Intrastate	\$0	\$0.0343	
Interstate	\$0	\$0.0343	
International	\$0	\$0.4995	

Additional Costs:

The above rates are inclusive of all fees (except for a credit card fee). There will be no fees or taxes allowed other than those identified below:

Allowable Additional Costs not included in the Firm Fixed Per Minute Rates include:

- Federal and local taxes and Universal Service Fund may be passed through, however they shall not exceed the actual cost-to-the provider
- Credit Card Transaction Fee
 - Vendors charging a Credit Card Transaction Fee must provide a single fee that will be applicable for all funding methods (IVR, Live Operator, Kiosk, Website, etc.) in all amounts.

体性温度	Single Credit Card Transaction Fee		
	\$3.95	- 7	

- Other than the Allowable Additional Costs disclosed by the Contractor in Exhibit 5P, no additional fee/cost or billing statement fee or other expenses may be charged by the vendor's, subcontractor(s), or by a vendor's third-party agent.
- In the event kiosks or alternative payment channels are implemented, other than the Allowable Additional Costs disclosed by the Contractor in Exhibit 5P, no additional taxes or other expenses may be charged by another vendor's subcontractor, or vendor's third-party alternative payment channel provider, such as TouchPay, JPay, ICSolutions (ICS), V-Connect (Value Added Communications / VAC), EZCard, or any other third-party account funding channel or company.

^{**} Federal and local taxes and Universal Service Fund may be passed through; however they shall not exceed the actual cost to the provider

Exhibit 6P - Pricing for Optional Services

Exhibit 6P includes pricing for the optional services described in Exhibit 4. The State may select to procure these optional services at any time during the contract period.

The following rate adjustments are provided for each of the Optional Services listed below:

Optional Service	Addition to the Per-Minute Rate for Each Call Type
1 - Special Equipment Fund (1)	See Special Equipment Fund Table for pricing
2 - RESERVED	
3 - Nexidia Key Word Search	\$0.0075
4 - InTime Labor Management	\$0.0050
5 - Cell Phone Detection/Control	To be determined based on the product, scope, and features selected by the State
6 - iPhones (2)	To be determined based on quantity
7 - Additional Investigative Site Administrators (3)	\$0.0035
8 - Voice Verification/Biometrics	\$0.0450

- (1) See Special Equipment Fund Table for pricing.
- (2) The PCS Team would work with the MDOC to determine the number of phones and service desired and would then negotiate whether any additional per-minute price is required to meet those needs.
- (3) This includes 3 or more site administrators in addition to the 5 that are already included as part of the standard service offering.
